MEMORANDUM FOR RECORD

RE: Design standards for gravity sewer collection systems.

1. The purpose of this memorandum is to establish the design guidelines and criteria for the design and construction of gravity sewer collection systems within the CLWSC service area.
2. Until further notice, CLWSC shall adopt the same design and construction standards as the San Antonio Water System (SAWS). The latest version of SAWS standards shall apply. You can find these standards on the SAWS website at: http://www.saws.org/business_center/design/
3. Exceptions to the SAWS design standards may be submitted for review and approval on a case by case basis to the Engineering Department at CLWSC.
4. Design consultants are highly encouraged to contact the Engineering Department as early as possible when beginning the design of any gravity sewer system within the CLWSC service area.
5. The Point of Contact for this memorandum is the undersigned at brian.waltman@clwsc.com or by phone at 830-832-9589.

A handwritten signature in black ink that reads "Brian F. Waltman".

Brian F. Waltman, P.E.
